At first I had my doubts, it was a big step to attend. Having four children - I didn't think there was much to learn from this, but the ideas from other parents helped me realise how to prevent unwanted behaviours from happening. Simple changes made big differences.

Excellent, I would recommend this group to any parent. I wish more parents could attend so that we could have heard their views.

I have never felt more welcome in a group before than they made me feel. I am really glad I have done the course, it helped me have more confidence.

I loved it

It made me realise that I am not alone and that other people out there are going through the same as me. I have made friends.

Happy home, Positive parenting. Better reflection on situations. Positive attitude.

I have really enjoyed the sessions and I have learnt quite a lot from them. Well worth attending.
